Islamabad, April 7, 2017

According to a Gilani Research Foundation Survey carried out by Gallup & Gilani Pakistan, 37% Pakistanis believe that it is possible for meat to be processed in labs in the next 50 years.

A nationally representative sample of men and women from across the four provinces was asked, “Now I will read a list of items which people might be able to do in the next 50 years. For each, please tell if it were possible, in your opinion would it be possible to do so or not [Meat will be processed in labs]?” In response to this question, 37% said that it would be possible for meat to be processed in labs in the next 50 years, while 63% said otherwise.
