

## Opinion Poll

### **ENERGY Fuel/Gas**

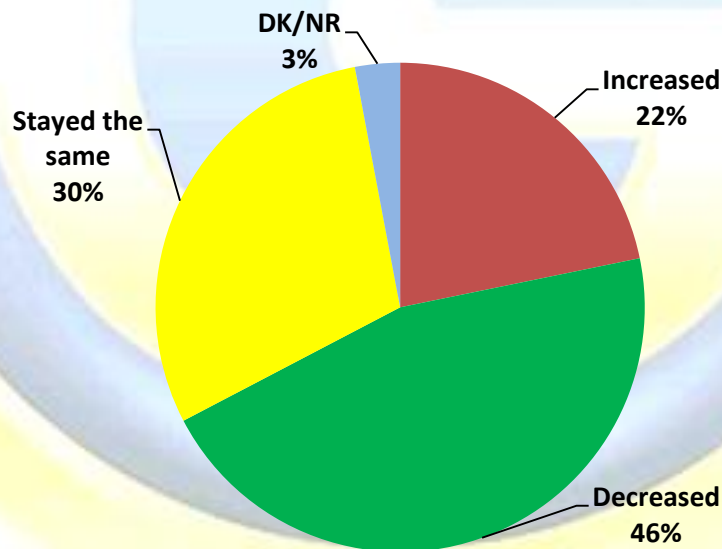

#### **Availability of gas: Nearly 1 in 2 (46%) Pakistanis report that the pressure of gas in their area has decreased in comparison to last winter. (GALLUP & GILANI PAKISTAN POLL)**

Islamabad, January 7, 2019

According to a Gilani Research Foundation Survey carried out by Gallup Pakistan, nearly 1 in 2 (46%) Pakistanis report that the pressure of gas in their area has decreased in comparison to last winter.

A nationally representative sample of men and women from across the four provinces was asked, “While thinking about the availability/load shedding of gas in the previous winters, please let us know whether, in comparison to last year, the availability of gas in your area (i.e., the pressure of gas) has increased, decreased, or stayed the same?” In response to this question, 22% said that it had increased, 46% said that it had decreased, 30% said that it was the same, while 3% did not know or did not wish to respond.

**Question: “While thinking about the availability/load shedding of gas in the previous winters, please let us know whether, in comparison to last year, the availability of gas in your area (i.e., the pressure of gas) has increased, decreased, or stayed the same?”**

The study was released by Gilani Research Foundation and carried out by Gallup & Gilani Pakistan, the Pakistani affiliate of Gallup International. The recent survey was carried out among a sample of 1,141 men and women in urban areas of all four provinces of the country, during 22 December – 29 December, 2018. The error margin is estimated to be approximately  $\pm 2$ -3 percent at the 95% confidence level.
