

Note from Spokesperson of Gallup Pakistan regarding survey findings released in The News International

It has come to our notice that a story has been published in The News International on January 27, 2019 titled "**52pc Pakistanis satisfied with Imran's tenure**". Gallup Pakistan is releasing this disclaimer to notify its readers and followers that this poll was released on Gallup Pakistan's official website (www.gallup.com.pk) on September 19, 2018 and the poll was conducted during August 20 – August 27, 2018.

We would like to take this opportunity to clarify that the poll released in today's edition of The News (<https://www.thenews.com.pk/print/423993-52pc-pakistanis-satisfied-with-imran-s-tenure>) is on Imran Khan's tenure as Prime Minister compared to the previous government and not satisfaction with Imran Khan's performance as Prime Minister. The number reported is an old finding.

Gallup Pakistan's latest poll on public opinion on Imran Khan's performance as PM was released on January 25, 2019, whereby 51% Pakistanis express a favourable opinion on Imran Khan's performance to date as Prime Minister (good/very good) (<http://gallup.com.pk/opinions-on-imran-khans-performance-at-51-around-half-of-pakistanis-express-a-favourable-opinion-on-imran-khans-performance-to-date-as-prime-minister-goodvery-good/>)
