Email: haseeb@abdul-haseeb.com

Passport: DN1070591 Pakistan

*"I am passionate about my work and I give it hundred percent.
When I am into a project, I don't just try to complete it, instead
I go an extra mile and make it better than requested."*

PROFILE

I am a resourceful Senior Software Developer with over 5 years of experience in software application development. Proficient in Object Oriented and MVC Design patterns with expertise in full-life cycle of software development processes including gathering requirements, estimation, designing, coding, debugging, testing and deployment.

Programming Attributes:

Excellent problem solver | highly productive | quick learner | strong attention to details | ability to understand other people's code | passionate for programming | self-learning skills | good communication skills

TECHNICAL SKILLS

Web Development:	PHP5, ASP.Net, CodeIgniter MVC, Symfony MVC, Wordpress CMS, Drupal CMS, Doctrine ORM, Social media APIs integration, Payment gateways integration, Amazon cloud web services integration
Web Design:	HTML5, CSS3, JavaScript, jQuery, Handlebars.js, Responsive web designing, Adobe Photoshop, Dreamweaver
Programming Languages:	C++, PHP, C#, Dot Net, Java, Python
IDEs and Tools:	Net Beans, Visual Studio, Eclipse, Xcode, Firebug, Phonegap
Databases:	MySQL, MySQLAdmin, , SQL Workbench, MSSQL Server

CAREER DEVELOPMENT

- [Jin Technologies](#), Islamabad Pakistan Aug 2010 - Present
Senior Software Developer

Working as a Senior Software Developer, using a variety of tools and technologies for cross platform application development. Responsibilities include project estimation, algorithm designing, backend coding, debugging, unit testing, deployment and documentation.

- Working on a Web Based Combinatorial Auction System for the past 4 years, one of its kind, for a major auction company from US. Developed a challenging algorithm for solving a non-polynomial problem for combinatorial bidding. Developed a number of modules for this project front and backend.

- Developed various responsive Web Apps using HTML5 and CSS3 for front end development. Also developed various Web sites using WordPress, Joomla and Drupal CMS.
- Developed a web based system for a hiring management company. This system has UI rich Emails Client with multiple mailboxes and drag n drop functions. Built using Symfony framework and ExtJS JavaScript library for UI Designing.
- Acted as team lead for various software applications and managed 3 to 4 software developers to complete the projects within the deadlines. Part of various teams and worked with a mix of people on variety of projects which taught me how to communicate well, how to manage multiple projects simultaneously and how to meet project deadlines.

■ **Nexgin Research Center, Islamabad Pakistan July 2009-July 2010**
Research Assistant

Worked as a Research Assistant. Hands-on experience of implementing research publications into practical applications. Responsibilities included project planning and algorithm designing, UI Designing for the application and Intensive Unit Testing of the algorithms.

- Worked on the field of Computer Security and Machine Learning in a project titled “Artificial Immune Intrusion Detection System”.
- Developed extensive C4.5 Decision Tree Algorithm library using native C++ object oriented programming.
- Performed training data generation using huge malware datasets and also performed testing on our C4.5 decision tree algorithm.

EDUCATION HISTORY

- **B.E. Computer Engineering** | Sep 2006-Sep 2010 | CGPA **3.20/4.0**
- From National University Of Sciences and Technology (NUST) Pakistan.
 - **Relevant Courses** | Object Oriented Design, Data Structures, Programming Languages Environments, Computer Graphics, Artificial Intelligence, Database Engineering, Software Engineering, Project Management, Engineering Ethics.
- **HSSC. Higher Secondary School Certificate** | Sep 2004-Sep 2006 | 75% Grade (A)
- From Fauji Foundation College New Lalazar Rawalpindi.

PERSONAL PROJECTS

Title: <http://www.alifailaan.pk/>

Description: HTML5 interactive maps using SVG graphics

Title: <http://umphub.com/>

Description: Amazon cloud EC2 integration, RTMP secured media streaming integration, MySQL database replication on slave EC2 instance, PCI compliant using firewall configurations, Front end design coding

Title: <http://getsmarteronline.com/>

Description: Template design and Authorize.net and PayPal payment gateways integration
