

Opinion Poll **LIFESTYLE** **Controversy on Claims about Car that Runs on Water as Fuel (Part 3)**

*This is a **3 part series** on a recent controversy which hit the media and concerns the claims of an innovator. The innovator Engineer Waqar Ahmed claims he has invented a car that runs on water as fuel. He has appeared on talk shows and also given presentations to highest officials in the government. Several scientists have refuted his claims and termed him as farce. This public opinion survey explores popular views on this controversy. **Part 1** explores the level of knowledge about the controversy; **Part 2** seeks popular assessment of those who are aware about whether the claim is credible or a farce?; **Part 3** seeks popular expectations about whether the government will support or ignore this innovation to save on energy.*

Views are equally divided on whether the controversial water-run car will receive support from government, 48% believe it would, 51% disagree. GILANI POLL/GALLUP PAKISTAN

Islamabad, September 07, 2012

According to a Gilani Research Foundation Survey carried out by Gallup Pakistan, views are equally divided on whether the controversial water-run car will receive support from government, 48% believe it would, 51% disagree.

A nationally representative sample of men and women from across the four provinces was asked “Imagine, that it turns out to be a successful experiment, in your opinion will the government support this or not?” Responding to this, 48% believe it would get government support, whereas 51% disagree. However, 1% did not give a view.

Question: “Imagine, that it turns out to be a successful experiment, in your opinion will the government support this or not?”
