

1 in 3 Pakistanis believe that the duration of load shedding has decreased this year.

In your opinion, has the duration of load shedding this year increased, decreased or remained the same as previous year?

Opinion Poll Energy Electricity

1 in 3 Pakistanis believe that the duration of load shedding has decreased this year. (GRF POLL)

Islamabad, January 22, 2016

According to a Gilani Research Foundation Survey carried out by Gallup Pakistan, 36% Pakistanis believe that duration of load-shedding has decreased this year.

A nationally representative sample of men and women from across the four provinces was asked, “In your opinion, has the duration of load shedding this year increased, decreased or remained the same as previous year?” In response to this question, 30% said that duration of load-shedding has increased this year, 36% said that it has decreased while 33% said that it has remained the same. 1% did not respond.

Question: “In your opinion, has the duration of load shedding this year increased, decreased or remained the same as previous year?”
