51 % Pakistanis believe that the amount of rainfall in Pakistan last year (2015) was less than the previous years. (GRF POLL)

Islamabad, March 25, 2016

According to a Gilani Research Foundation Survey carried out by Gallup Pakistan, 51% Pakistanis believe that the amount of rainfall in Pakistan last year (2015) was less than the previous years.

A nationally representative sample of men and women from across the four provinces was asked, “According to your information, was the amount of rainfall in Pakistan last year (2015) greater, lesser or was there no difference compared to previous years?” In response to this question, 14% said that rainfall was greater than before, 51% said that rainfall was less than before while 26% said that there was no difference. 9% did not respond.

Question: “According to your information, was the amount of rainfall in Pakistan last year greater, lesser or was there no difference compared to previous years?”
