Opinion Poll Festivals/Events New Year

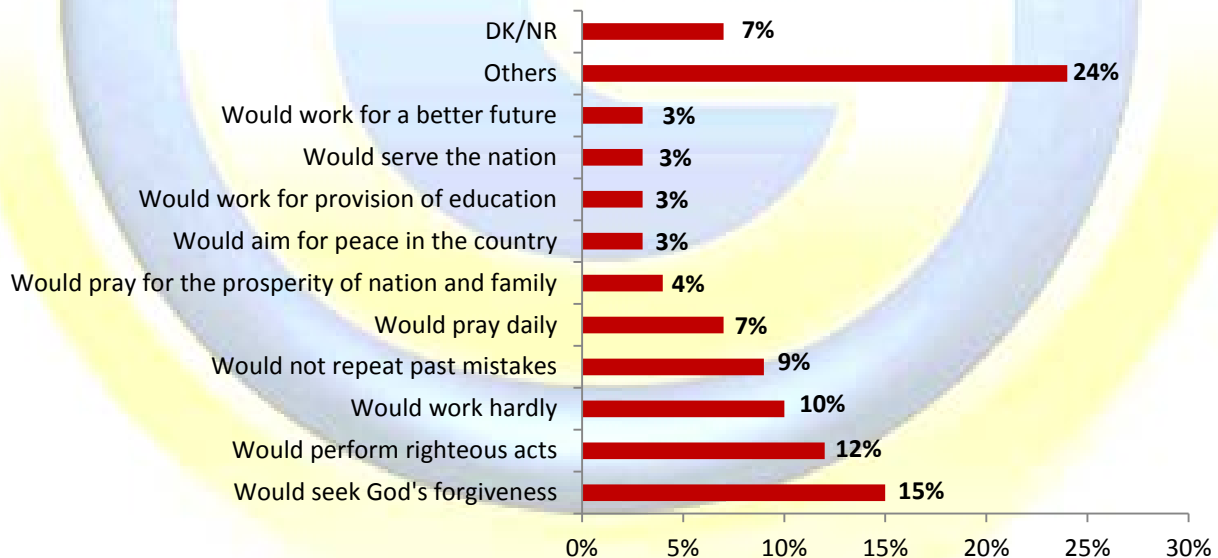

34 % of the Pakistanis who claim to have made resolutions at the start of the new year had religious connotations attached to their resolution. GILANI RESEARCH FOUNDATION (GRF POLL)

Islamabad, April 26, 2016

According to a Gilani Research Foundation Survey carried out by Gallup Pakistan, 34% of the Pakistanis who claim to have made New Year resolutions had religious connotations attached to their resolution. 15% said that they would seek God's mercy and forgiveness; 12% said that they would perform righteous acts; and 7% said that they would pray daily.

A nationally representative sample of men and women from across the four provinces who said that they had made resolutions at the start of the New Year were asked, "What resolutions did you make at the start of the New Year?" In response to this question, 15% that they made a resolution to seek God's forgiveness, 12% said that they would perform righteous acts, 10% said that they vowed to work more hardly and 9% said that they resolved to not repeat previous mistakes. 7% also said that they made a resolution to pray daily, 4% said that they would pray for the prosperity of the family and nation while 3% each said that they would aim for peace in the country, would work for the provision of education, would serve the nation and would work towards a better future. 24% gave other responses and 7% did not respond.

Question: "What resolutions did you make at the start of the New Year?"
