

Opinion Poll
POLITICAL PERFORMANCE/RATINGS/DEBATES
Current Government

49% say that load shedding has decreased, compared to previous PPP government. (GRF POLL)

Islamabad, September 15, 2016

According to a Gilani Research Foundation Survey carried out by Gallup Pakistan, 49% say that load shedding has decreased, compared to previous PPP government.

A nationally representative sample of men and women from across the four provinces was asked, "If you compare the current duration of load shedding with the load shedding in the previous PPP government, do you think load shedding now has increased, decreased, or remained the same." In response to this question, 49% said that load shedding has decreased, 16% said that it has increased, and 33% said that it hasn't made a lot of difference. 2% did not respond.

Question: "If you compare the current duration of load shedding with the load shedding in the previous PPP government, do you think load shedding now has increased, decreased, or remained the same."
