Tuition Culture in Pakistan: Majority Pakistanis (53%) say that they send their children to tuitions instead of teaching them themselves.

According to a Gilani Research Foundation Survey carried out by Gallup Pakistan, majority Pakistanis (53%) say that they send their children to tuitions instead of teaching them themselves.

A nationally representative sample of men and women from across the four provinces was asked, “Please tell, do you teach your children yourself or do you send them for tuitions or have you employed a tutor for them? (Multiple responses allowed)” In response to this question, 53% said that they send their children to tuitions, 38% said that they teach them themselves, 9% said that they employ a tutor and 1% said other. 3% did not know or did not wish to respond.

“Education” has become a topic on public agenda in Pakistan. The results of this survey point to possible gaps in education system leading to parents sending their children to tuitions.

The study was released by Gilani Research Foundation and carried out by Gallup Pakistan, the Pakistani affiliate of Gallup International. The recent survey was carried out among a sample of 1835 men and women in rural and urban areas of all four provinces of the country, during August 1 – August 8, 2016. Error margin is estimated to be approximately $\pm 2-3$ per cent at 95% confidence level.
