Gilani Research Foundation (GRF Poll)

Islamabad— December 5, 2016

50% Pakistanis believe iodized salt is good for health.

According to a Gilani Research Foundation Survey carried out by Gallup Pakistan, 50% Pakistanis believe iodine mixed salt is good for health.

A nationally representative sample of men and women from across the four provinces were asked, “In your opinion, is iodine mixed salt good or bad for health?” In response to this question, 50% said it is good for health, 14% said it is bad for health and 24% said neither good nor bad for health. 12% did not know or did not wish to respond.

The study was released by Gilani Research Foundation and carried out by Gallup Pakistan, the Pakistani affiliate of Gallup International. The recent survey was carried out among a sample of 1892 men and women in rural and urban areas of all four provinces of the country, during August 29 – September 5, 2016. Error margin is estimated to be approximately $\pm 2-3$ per cent at 95% confidence level.
