Gilani Research Foundation (GRF Poll)**Islamabad— December 26, 2016**

A significant majority of Pakistanis (67%) believe management of cleanliness in their area's mosque is better compared to their area in general.

According to a Gilani Research Foundation Survey carried out by Gallup Pakistan, a significant majority of Pakistanis (67%) believe management of cleanliness in their area's mosque is better compared to their area in general.

A nationally representative sample of men and women from across the four provinces was asked, "Compared to your area, how is the management of cleanliness in your area's mosque?" In response to this question, 67% said it is better, 14% said it is worse and 19% said it is the same.

Rural Urban Breakdown:

Insignificant rural-urban difference was seen in the results.

Provincial Breakdown:

In Punjab, 62% said better, 16% said worse and 22% said same. In Sindh, 79% said better, 5% said worse and 16% said same. In KPK, 60% said better, 30% said worse and 10% said same. In Balochistan, 93% said better, 2% said worse and 5% said same.

The results show that holistically across all four provinces, majority believe cleanliness in their area's mosque is better than that of the area in general.

The study was released by Gilani Research Foundation and carried out by Gallup Pakistan, the Pakistani affiliate of Gallup International. The recent survey was carried out among a sample of 1771 men and women in rural and urban areas of all four provinces of the country, during September 19– September 26, 2016. Error margin is estimated to be approximately $\pm 2-3$ per cent at 95% confidence level.

Gilani Research Foundation (GRF Poll)

Islamabad December 27, 2016

“ Majority Pakistanis (65%) believe loud speakers are used moderately in mosques, a quarter (24%) complains against too frequent use. ”

According to a Gilani Research Foundation Survey carried out by Gallup Pakistan, majority Pakistanis (65%) believe loud speakers are used moderately in mosques, a quarter (24%) complains against too frequent use.

A nationally representative sample of men and women from across the four provinces was asked, “In your opinion, how frequently are loud speakers used in mosques?” In response to this question, 65% said moderately, 17% said too frequently, 7% said to an uncomfortable extent and 11% did not know or did not wish to respond.

Rural Urban Breakdown

In rural areas, 69% said moderately, 15% said too frequently, 6% said to an uncomfortable extent and 10% did not know or did not wish to respond. In urban areas, 58% said moderately, 20% said too frequently, 10% said to an uncomfortable extent and 12% did not know or did not wish to respond.

Comparing the two regions, the results show that loud speakers are used more frequently in urban areas than in rural areas.

The study was released by Gilani Research Foundation and carried out by Gallup Pakistan, the Pakistani affiliate of Gallup International. The recent survey was carried out among a sample of 1771 men and women in rural and urban areas of all four provinces of the country, during September 19–September 26, 2016. Error margin is estimated to be approximately $\pm 2-3$ per cent at 95% confidence level.

A SIGNIFICANT MAJORITY OF PAKISTANIS (50% TO 78%) BELIEVE NGOS, SCHOOL/COLLEGES ETC., SOCIAL SERVICE INSTITUTES AND MOSQUES USE THEIR FUNDS ETHICALLY, WHILE 50% BELIEVE GOVERNMENT INSTITUTES USE THEIR FUNDS UNETHICALLY.

In your opinion, to what extent do the following institutions use their funds ethically?

SOURCE: GALLUP AND GILANI SURVEYS SAMPLE SIZE: 1771
Nationally Representative Sample covering both urban rural respondents across Pakistan's four provinces.

Nearly 2/3rd Pakistanis (69%) believe that the Karachi Operation is unbiased, 30% say it is biased.

According to a Gilani Research Foundation Survey carried out by Gallup Pakistan, nearly 2/3rd Pakistanis (69%) believe that the Karachi Operation is unbiased, 30% say it is biased.

A nationally representative sample of men and women from across the four provinces was asked, "Some people think that Karachi Operation is biased whereas others think it is unbiased. What is your opinion?" In response to this question in September 2016, 30% said biased, 69% said unbiased and 1% did not know or did not wish to respond.

Trend Analysis:

The same question was asked in October 2013. In 2013, 26% said biased, 71% said unbiased and 3% did not know or did not wish to respond.

In November 2014, 25% said biased, 68% said unbiased and 7% did not know or did not wish to respond.

Comparing the public perception in 2013 to 2016, there has been a 4% increase in proportion of Pakistanis who believe the Karachi Operation is biased and a 2% decrease in the proportion of Pakistanis who believe the Karachi Operation is unbiased.

The study was released by Gilani Research Foundation and carried out by Gallup Pakistan, the Pakistani affiliate of Gallup International. The recent survey was carried out among a sample of 1835 men and women in rural and urban areas of all four provinces of the country, during September 26– October 3, 2016. Error margin is estimated to be approximately $\pm 2-3$ per cent at 95% confidence level.
