Islamabad— January 30, 2017

42% Pakistanis are hopeful that Prime Minister Nawaz Sharif will be successful in improving the economic condition of the country; 40% believe otherwise.

Source: Gilani Research Foundation Poll (GRF Poll)
Field work conducted by Gallup Pakistan, the Pakistani affiliate of Gallup International Association www.gallup-international.com; www.gallup.com.pk; www.gilanifoundation.com

According to a Gilani Research Foundation Survey carried out by Gallup Pakistan, 42% Pakistanis are hopeful that Prime Minister Nawaz Sharif will be successful in improving the economic condition of the country; 40% believe otherwise.

A nationally representative sample of men and women from across the four provinces was asked, “Do you think Prime Minister Nawaz Sharif will be successful in improving the economic condition of the country?” In response to this question, 42% said successful, while 40% said unsuccessful. 18% did not know or did not wish to respond.

The study was released by Gilani Research Foundation and carried out by Gallup Pakistan, the Pakistani affiliate of Gallup International. The recent survey was carried out among a sample of 1872 men and women in rural and urban areas of all four provinces of the country, during October 17–October 24, 2016. Error margin is estimated to be approximately ± 2 -3 per cent at 95% confidence level.

“ 66% Pakistanis claim they were affected (very much or somewhat) due to closure of mobile network during Muharram. ”

According to a Gilani Research Foundation Survey carried out by Gallup Pakistan, 66% Pakistanis claim they were affected (very much or somewhat) due to closure of mobile network during Muharram.

A nationally representative sample of men and women from across the four provinces was asked, “Recently, the government shut down mobile networks because of Muharram. To what extent were you personally affected by this?” In response to this question, 22% said very much affected, 44% said somewhat affected, 20% said not affected to some extent while 14% said not affected at all.

The study was released by Gilani Research Foundation and carried out by Gallup Pakistan, the Pakistani affiliate of Gallup International. The recent survey was carried out among a sample of 1872 men and women in rural and urban areas of all four provinces of the country, during October 17–October 24, 2016. Error margin is estimated to be approximately $\pm 2-3$ per cent at 95% confidence level.
