**52% Pakistanis claim their physical and emotional health has interrupted with their social activities in the previous four weeks, either all the time, most of the time or for some time.
(GALLUP & GILANI PAKISTAN POLL)**

Islamabad, July 13, 2018

According to a Gilani Research Foundation Survey carried out by Gallup & Gilani Pakistan, 52% Pakistanis claim their physical and emotional health has interrupted with their social activities in the previous four weeks, either all the time, most of the time or for some time.

A nationally representative sample of men and women from across the four provinces was asked “Please tell in previous 4 week to what extent (or time) did your physical health and emotional issues interrupt your social activities (such as meeting relatives and friends)?” In response to this question, 10% said all the time, 19% said most of the time, 23% said for some time, 18% said little bit of the time, 26% said not at all, while 4% did not know or did not wish to respond.

Question: “Please tell in previous 4 week to what extent (or time) did your physical health and emotional issues interrupt your social activities (such as meeting relatives and friends)?”
