(GALLUP & GILANI PAKISTAN POLL)**

Islamabad, November 16, 2018

According to a Gilani Research Foundation Survey carried out by Gallup & Gilani Pakistan, Pakistanis continue to face 6 hours of load shedding per day. Urban Pakistanis experience two hours less load shedding as compared to an average Pakistani.

A nationally representative sample of men and women from across the four provinces was asked “Please tell, the duration of load shedding in your area yesterday?” by using the responses to the question, the calculated average load shedding time was found out to be 6 hours all over Pakistan.

In urban rural comparison, urban areas are facing 4 hours of load shedding per day while rural areas are facing more than 6 hours of load shedding per day.

“Please tell, the duration of load shedding in your area yesterday?”
