**Less than 1 in 2 (48 %) respondents of a global survey opine that gender equality has been achieved in politics. A significantly greater proportion of Pakistanis (62 %) hold similar views (Gallup & WIN World Survey 2019)**

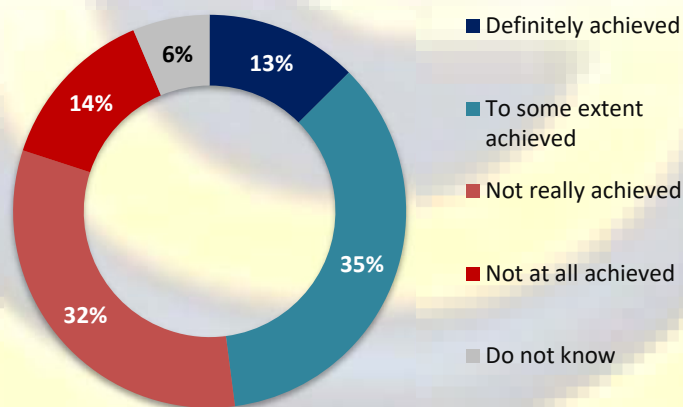

Islamabad, 11<sup>th</sup> March, 2020

According to a WIN World Survey, 48% respondents over the world say that gender equality in politics has definitely or to some extent been achieved in their country.

*This is a series of polls being released in honor of International Women's Day, celebrated on the 8th of March every year.*

A sample of 29,368 men and women from 40 countries across the globe was asked, "Would you say gender equality has been definitely/to some extent/not really/not at all achieved in your country in politics?" 48% of respondents in participating countries say that gender equality in politics has definitely or to some extent been achieved in their country, while 46% say that it has not really, or not at all been achieved. 6% did not know or did not respond. Globally, the net index for gender equality in politics is 2%.

**Question: "Would you say gender equality has been definitely/to some extent/not really/not at all achieved in your country in politics"**

### Country wise analysis: Finland ranks the highest, Japan the lowest

Of the 40 countries surveyed, 21 have a positive net index for political gender equality. Finland ranks the highest with a net index of 47%, followed by Denmark at 38%. In contrast, France has an index of -34%, and Japan the lowest at -60%.

The study was released as part of The WWS (WIN Worldwide Survey), a study conducted every year with the purpose to measure people's thoughts, expectations, worries and perceptions related to relevant topics for society and business. A total of 29,368 people were interviewed globally from 40 countries. The fieldwork was conducted during October 2019 – December 2019. The margin of error for the survey is between 2.4 and 4.4 at 95% confidence level. The global average has been computed according to the share of the covered adult population of the surveyed countries.
