7 in 10 Pakistanis (69%) believe placing more emphasis on development of technology in the future will be a good change, similar to the global average. (World Values Survey and Gallup & Gilani Pakistan)

Islamabad, 28th October, 2020

According to a World Values Survey and Gallup & Gilani Pakistan Poll, 69% said placing more emphasis on development of technology in the future will be a good change.

A nationally representative sample of adult men and women from across the four provinces was asked the following question, *“Do you think if the following change happens in the near future would it be a good thing, a bad thing, or neither? - More emphasis on the development of technology”*. In response to this question, 69% said it will be a good change, 17% said it will be neither bad nor good and 11% said it will be a bad change.

Global Results: Globally, 70% believe it will be a good change.

Question: “Do you think if the following change happens in the near future would it be a good thing, a bad thing, or neither? - More emphasis on the development of technology”
