Islamabad, 9th December 2020,

According to a World Justice Project (WJP) Survey conducted by Gallup Pakistan, Pakistan ranks 114 among 128 countries surveyed in the world on effectively guaranteeing freedom from arbitrary interference with privacy.

The global survey results are based on sub-Factor 4.6 of the WJP Fundamental Rights Index which measures whether the police or other government officials conduct physical searches without warrants or intercept electronic communications of private individuals without judicial authorization.

Pakistan vs. Neighbouring / South Asian Countries: On this index, India and China rank higher than Pakistan at 56 and 107 respectively, while Bangladesh ranks 121 and Iran ranks 123.

Pakistan vs. Developed: Denmark ranks 1st on this index, followed by USA at 16 and UK at 24.

The study was released by World Justice Project and carried out by Gallup & Gilani Pakistan, the Pakistani affiliate of Gallup International. The country scores and rankings presented in this report are built from more than 500 variables drawn from the assessments of more than 130,000 households and 4,000 legal practitioners and experts in 128 countries and jurisdictions. The study in Pakistan was carried out among a sample of 1,000 men and women in urban and rural areas of all four provinces of the country, during 2019. The error margin is estimated to be approximately $\pm 2-3$ percent at the 95% confidence level.
