Urban-Rural Breakdown

Respondents from urban areas (74%) are more likely to believe the coronavirus vaccine was free than those from rural areas (69%)

The study was released by Gilani Research Foundation and carried out by Gallup & Gilani Pakistan, the Pakistani affiliate of Gallup International. The recent survey was carried out among a sample of 1066 men and women in urban and rural areas of all four provinces of the country, during July 01, 2021 – July 13, 2021. The error margin is estimated to be approximately $\pm 2-3$ percent at the 95% confidence level. The methodology used for data collection was CATI.
