Approximately 1 in 4 Pakistanis (28%) believe that it is very likely something will happen to them along the way should they have to walk at night in their neighborhood: Gallup & Gilani Pakistan

(Islamabad), September 28, 2021

According to a survey conducted by Gallup & Gilani Pakistan, nearly 1 in 4 Pakistanis (28%) believe that it is likely something will happen to them along the way should they have to walk at night in their neighborhood.

A nationally representative sample of adult men and women from across the four provinces was asked the following question, “*If someone in your neighborhood has to walk a mile or two at night, how likely is it that something will happen to them along the way?*” In response to this question, 28% said very likely, 33% said somewhat likely, 36% said somewhat unlikely and 3% did not know/did not respond.

Question: “If someone in your neighborhood has to walk a mile or two at night, how likely is it that something will happen to them along the way?”

Urban-Rural Breakdown

More Pakistanis from rural areas (31%) are very likely to believe that something will happen to them along the way if they had to walk in neighborhood for a mile or two at night as compared to those from urban areas (23%).

Rural-Urban Breakdown

The study was released by Gilani Research Foundation and carried out by Gallup & Gilani Pakistan, the Pakistani affiliate of Gallup International. The recent survey was carried out among a sample of 1418 men and women in urban and rural areas of all four provinces of the country, during August 13, 2021 – September 05, 2021. The error margin is estimated to be approximately $\pm 2-3$ percent at the 95% confidence level. The methodology used for data collection was CATI.
