OVER HALF (55%) OF PAKISTANIS SAY THAT THEY WILL COMPLETELY FOLLOW THE ADVICE OF A PUBLIC HEALTH OFFICER SHOULD THEY TELL THEM TO BE QUARANTINED FOR AT LEAST 14 DAYS BECAUSE THEY HAVE THE CORONAVIRUS: GALLUP & GILANI PAKISTAN

تقریباً نصف سے زائد (55%) پاکستانیوں کے مطابق اگر پبلک ہیلتھ آفیسر ان سے کہے کہ انہیں کم از کم 14 دن قرنطینہ میں رہنا چاہیے کیونکہ انہیں کورونا وائرس ہے، تو وہ ان کے اس مشورے پر مکمل طور پر عمل کریں گے

Suppose a public health officer/public health official tells you that you should be quarantined for at least 14 days because you have the coronavirus, to what extent would you follow that advice?

Don't know/ No response: 4%

Opinion Poll Health Coronavirus

Over half (55%) of Pakistanis say that they will completely follow the advice of a public health officer should they tell them to be quarantined for at least 14 days because they have the coronavirus: Gallup & Gilani Pakistan

(Islamabad), November 5, 2021

According to a survey conducted by Gallup & Gilani Pakistan, over half (55%) of Pakistanis say that they will completely follow the advice of a public health officer should they tell them to be quarantined for at least 14 days because they have the coronavirus.

A nationally representative sample of adult men and women from across the four provinces was asked the following question, “*Suppose a public health officer/health department official tells you that you should be quarantined for at least 14 days because you have the coronavirus, to what extent would you follow that advice?*” In response to this question, 55% said they will completely follow it, 15% said they will follow it to a certain extent, 8% said they will follow it very little while 18% said they would not follow it at all. 4% did not know or provided no response.

Question: “Suppose a public health officer/public health official tells you that you should be quarantined for at least 14 days because you have the coronavirus, to what extent would you follow that advice?”

The study was released by Gilani Research Foundation and carried out by Gallup & Gilani Pakistan, the Pakistani affiliate of Gallup International. The recent survey was carried out among a sample of 1727 men and women in urban and rural areas of all four provinces of the country, during August 13, 2021 – September 5, 2021. The error margin is estimated to be approximately $\pm 2-3$ percent at the 95% confidence level. The methodology used for data collection was CATI.
