Despite claims of upcoming GDP growth from the government, only 25% Pakistanis feel that their income will increase in the coming year 2022: Consumer Confidence Index Q3 2021 by Gallup Pakistan and Dun & Bradstreet

(Islamabad), December 21, 2021

According to a Consumer Confidence Index survey conducted by Gallup & Gilani Pakistan, despite claims of upcoming GDP growth from the government, only 25% Pakistanis feel that their income will increase in the coming year 2022.

Complete report on Pakistan Consumer Confidence Index can be accessed [here](#).

A nationally representative sample of adult men and women from across the four provinces was asked the following question, “In your opinion, compared to last year, in the coming year, what change will come in your and your household’s income?” In response to this question, 6% said ‘increase a lot’, 19% said ‘increase’, 28% said ‘no change’, 26% said ‘decrease’, and 9% said ‘decrease a lot’. 12% did not know or provided no response.

Question: “In your opinion, compared to last year, in the coming year, what change will come in your and your household’s income?”

The study was released by Gilani Research Foundation and carried out by Gallup & Gilani Pakistan, the Pakistani affiliate of Gallup International. The recent survey was carried out among a sample of 1,691 men and women in urban and rural areas of all four provinces of the country, during September – October 2021. The error margin is estimated to be approximately $\pm 2-3$ percent at the 95% confidence level. The methodology used for data collection was phone interviews.
