مرد حضرات (3%) کی نسبت خواتین (7%) کی زیادہ شرح اپنے قد کے حوالے سے تنقیدی رائے رکھتی ہیں

Question: "Overall, do you think your height is all right, tall, or short?"

Opinion Poll General

Women (7%) are more likely to critically evaluate their height than men (3%): Gallup & Gilani Pakistan

(Islamabad), February 24, 2022

According to a survey conducted by Gallup & Gilani Pakistan, women (7%) are more likely to critically evaluate their height than men (3%).

A nationally representative sample of adult men and women from across the four provinces was asked the following question, “Overall, do you think your height is all right, tall, or short?” In response to this question, 5% said short, 6% said tall, 86% said all right and 3% didn’t know or gave no response.

Question: “Overall, do you think your height is all right, tall, or short?”

The study was released by Gilani Research Foundation and carried out by Gallup & Gilani Pakistan, the Pakistani affiliate of Gallup International. The recent survey was carried out among a sample of 1865 men and women in urban and rural areas of all four provinces of the country, from December 22, 2021 - January 15, 2022. The error margin is estimated to be approximately $\pm 2-3$ percent at the 95% confidence level. The methodology used for data collection was CATI.
