Pakistan ranks highest (90%) among all countries that claim that they are connected to their country: Gallup Pakistan and WIN World Survey report released

(Islamabad), June 16, 2022

According to a Gallup Pakistan Survey in Pakistan (and similar surveys done by Worldwide Independent Network of Market Research (WIN) across the world), Pakistan ranks highest (90%) among all countries that claim that they are connected to their country.

These findings emerge from an international survey conducted across the globe by The Worldwide Independent Network of Market Research (WIN) - a global network conducting market research and opinion polls in every continent. WIN International has published the Annual WIN World Survey (WWS – 2021), exploring the views and beliefs of 19,422 individuals, among citizens from 24 countries across the globe. The fieldwork for Pakistan was conducted between 5th to 8th April 2022 and the sample size was 500 individuals.

The international press release with the report can be accessed [here](#).

A nationally representative sample of adult men and women from across the developed and developing world were asked the following question. “How connected do you feel with your country?” In response to this question in Pakistan, 90% said connected, 1% said somewhat connected, 8% said not connected at all and 1% didn’t know or gave no response.

Appendix

Question: “How connected do you feel with your country?”

*DK/NR replies have not been plotted

The study was released by Gilani Research Foundation and carried out by Gallup & Gilani Pakistan, the Pakistani affiliate of Gallup International. The recent survey was carried out among a sample of 500 men and women in urban and rural areas of all four provinces of the country, April 5 –April 8, 2022. The error margin is estimated to be approximately ± 2 -3 percent at the 95% confidence level. The methodology used for data collection was CATI.
