7 in 10 Pakistanis opine that deforestation has increased the level of damage caused by recent flooding: Gallup & Gilani Pakistan

(Islamabad), October 4th, 2022

According to a survey conducted by Gallup & Gilani Pakistan, 70% of people surveyed thought that deforestation has increased the level of damage caused by recent flooding.

A nationally representative sample of adult men and women from across the country was asked the following question regarding, *“Some people think that the floods would have been less damaging if the forests hadn’t been cut down. Do you agree with this?”* 70% of the people said ‘Yes’ while 30% said ‘No.’ Of those who said ‘Yes,’ 55% belonged to low-income households, 76% were from medium income households and 75% belonged to high income households.

Question: “Some people think that the floods would have been less damaging if the forests hadn’t been cut down. Do you agree with this?”
