Less than half (44%) Pakistanis think that the quality of treatment at government hospitals is good.: Gallup & Gilani Pakistan

(Islamabad), December 19th, 2022

According to a survey conducted by Gallup & Gilani Pakistan, less than half (44%) Pakistanis think that the quality of treatment at government hospitals is good.

A nationally representative sample of adult men and women from across the country was asked the following question regarding, “In your opinion, how is the quality of treatment in government hospitals?” 44% responded good, 22% said bad while 32% said the quality of treatment in government hospitals is just okay.

Question: “In your opinion, how is the quality of treatment in government hospitals?”

The study in Pakistan was conducted and released by Gilani Research Foundation and carried out by Gallup & Gilani Pakistan, the Pakistani affiliate of Gallup International. The recent survey was carried out among a sample of 747 men and women in urban and rural areas of all four provinces of the country. The error margin is estimated to be approximately $\pm 2-3$ percent at the 95% confidence level. The methodology used for data collection was telephonic surveys (CATI).
