**More than half (54%) Pakistanis say that they were treated with good care and concern, the last time they visited a healthcare professional:
Gallup & Gilani Pakistan**

(Islamabad), February 10th, 2023

According to a survey conducted by Gallup & Gilani Pakistan, more than half (54%) Pakistanis say that they were treated with good care and concern, the last time they visited a healthcare professional.

A nationally representative sample of adult men and women from across the country, was asked the following as a follow up question, *“Thinking back to the last time you were examined by a health care professional, i.e. a doctor, how did you find the doctor in the following aspects? - treating you with care and concern?”* 34% said it was very good, 54% said it was good, 6% felt neutral about it while 5% said it was bad and 1% said it was very bad.

Question: “Thinking back to the last time you were examined by a health care professional, i.e. a doctor, how did you find the doctor in the following aspects? - treating you with care and concern?”
