93% of solar panel users in Pakistan say that the electricity bill encouraged them to install solar panels: Gallup & Gilani Pakistan

(Islamabad), April 12th, 2023

According to a survey conducted by Gallup & Gilani Pakistan, 93% of solar panel users in Pakistan say that the electricity bill encouraged them to install solar panels.

A representative sample of net-metered individuals from across the country, was asked the question “What factors encouraged you to install Solar Panels?” In response, 93% said electricity bill, 42% said they wanted to live green (reduce their carbon footprint), 27% said dependency on outside sources encouraged them to install solar panels, 13% said the information provided by installer encouraged them while 8% said family, neighbors, friends etc. recommended them to install solar panels and 6% said other factors encouraged them.

The study in Pakistan was conducted and released by Gilani Research Foundation and carried out by Gallup & Gilani Pakistan, the Pakistani affiliate of Gallup International. The recent survey was carried out among a sample of 152 men and women. Gallup compiled a directory of net-metering users based on net-metering licenses. This data is available on NEPRA’s website where net-metering licenses as issued to users are available. A WhatsApp message was drafted to circulate among the users identified via NEPRA’s website. The method of data collection included a self-filled survey on WhatsApp.
