The study was conducted and released by Dun & Bradstreet Pakistan and carried out by Gallup & Gilani Pakistan, the Pakistani affiliate of Gallup International. The study was carried out among a sample of 1,403 men and women in urban and rural areas of all four provinces of the country, conducted during October 2023. The error margin is estimated to be approximately $\pm 2-3$ percent at the 95% confidence level. The methodology used for data collection was telephonic surveys (CATI).
