9% of Pakistanis report having been bitten by a dog: Gallup & Gilani Pakistan

(Islamabad) 29th July, 2024

According to a survey conducted by Gallup & Gilani Pakistan, 9% of Pakistanis report having been bitten by a dog.

A nationally representative sample of adult men and women from across the country was asked the question, “*God forbid, have you ever been bitten by a dog?*” In response, 9% said ‘Yes’, 90% said ‘No’, and 1% said that they did not know or gave no response.

Question: God forbid, have you ever been bitten by a dog?

The study in Pakistan was conducted and released by Gallup & Gilani Pakistan, the Pakistani affiliate of Gallup International. The recent survey was carried out among a sample of 769 men and women in urban and rural areas of all four provinces of the country, conducted from 28th June - 10th July 2024. The error margin is estimated to be approximately $\pm 2-3$ percent at the 95% confidence level. The methodology used for data collection was telephonic surveys (CATI).

Across gender: A higher proportion of Pakistani men (14%) reported being bitten by a dog, as compared to women (3%).

Across age groups: Older people reported being bitten by a dog in a higher proportion compared to their younger counterparts, with 16% in the '50+' age group having been bitten by a dog. A point to note though, is that the question asks if they were “ever bitten”, therefore, given the age differences younger people may have just had fewer encounters of the sort, compared to their elders.
