4 out of 5 (80%) of adult Pakistanis are married; women, rural residents, and those aged 50+ yrs most likely to be married: Gallup & Gilani Pakistan

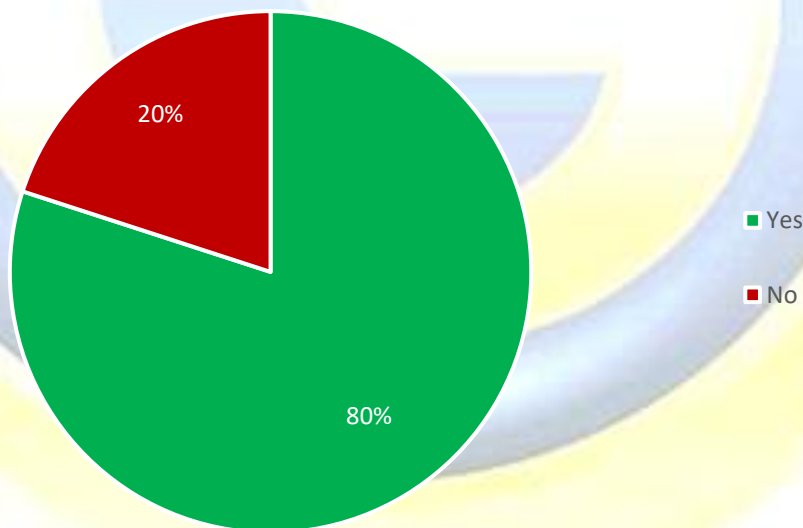

(Islamabad) 22nd August, 2024

According to a survey conducted by Gallup & Gilani Pakistan, 4 out of 5 (80%) of adult Pakistanis are married. Survey findings revealed that women were 12% more likely than men to be married. Meanwhile, rural residents were 8% more likely to be married, as compared to urban residents, showing delayed marriages in urban areas. Moreover, among young adults aged 18-30, majority are married (56%) while 44% are not married.

This press release is in a series of press releases Gallup Pakistan is producing on the subject of marriage and social behavior.

A nationally representative sample of adult men and women from across the country was asked the question, "Are you married?" In response, 80% said 'Yes', while 20% said 'No'.

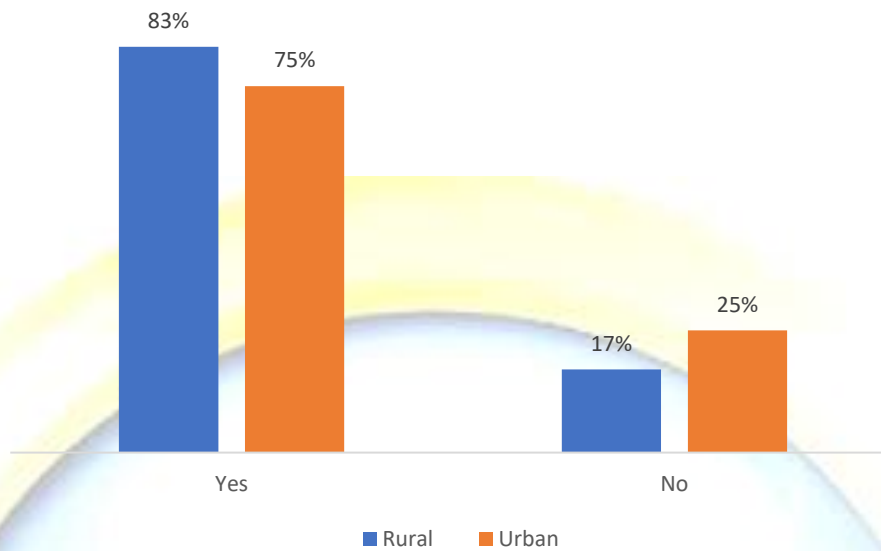

Question: Are you married?

The study in Pakistan was conducted and released by Gallup & Gilani Pakistan, the Pakistani affiliate of Gallup International. The recent survey was carried out among a sample of 755 men and women in urban and rural areas of all four provinces of the country, conducted from 28th June - 10th July 2024. The error margin is estimated to be approximately $\pm 2-3$ percent at the 95% confidence level. The methodology used for data collection was telephonic surveys (CATI).

Across rurality: Rural residents were more likely (83%) to be married, as compared to urban residents (75%). This is reflective primarily of marriage at younger ages in rural areas and older ages in urban areas.
