Press release 25 on Marriage and Social Behavior

From the Pakistanis who had attended a wedding in June, a quarter had attended 3 to 4 weddings; men had attended more weddings than women: Gallup & Gilani Pakistan

(Islamabad) 26th September, 2024

According to a survey conducted by Gallup & Gilani Pakistan, from the Pakistanis who had attended a wedding in June, a quarter had attended 3 to 4 weddings. Survey findings revealed men had attended more weddings overall during the month of June than women.

This press release is in a series of press releases Gallup Pakistan is producing on the subject of marriage and social behavior. You can access the previous press release in this series [here](#).

A nationally representative sample of adult men and women from across the country who had attended a wedding in June was asked the question, “Please state the number of weddings you attended last month (June).” In response, 62% said ‘1-2 weddings’, 25% said ‘3-4 weddings’, 8% answered ‘5-6 weddings’, and 5% responded ‘More than 6 weddings’.

Question: Please state the number of weddings you attended last month (June).

The study in Pakistan was conducted and released by Gallup & Gilani Pakistan, the Pakistani affiliate of Gallup International. The recent survey was carried out among a sample of 282 men and women in urban and rural areas of all four provinces of the country, conducted from 28th June - 10th July 2024. The error margin is estimated to be approximately $\pm 2-3$ percent at the 95% confidence level. The methodology used for data collection was telephonic surveys (CATI).

Across gender: Pakistani women were 10% more likely to have attended 1 to 2 weddings, relative to the men who were surveyed (58%). Men were 4% more likely than women (22%) to have attended 3 to 4 weddings, and 9% more likely to have attended more than 6 weddings, where no women had attended this many weddings during the month of June. Women were more likely (10%) to have attended 5 to 6 weddings in June, as compared to men (7%).
