6% of all Pakistanis report having a family member provide IT services abroad; only 2% in rural areas: Gallup & Gilani Pakistan

(Islamabad) 22nd October, 2024

According to a survey conducted by Gallup & Gilani Pakistan, 6% of all Pakistanis report having a family member provide IT based online services abroad. A further analysis shows that this proportion was only 2% in rural areas.

A nationally representative sample of adult men and women from across the country was asked the question, *“Some people use the Internet to provide their services such as IT skills abroad. Would you agree to following statement - Someone from my family is providing his/her services abroad through internet”*. In response, 6% said ‘Yes, 85% said ‘No’, and 9% said that they did not know or gave no response.

Question: Some people use the Internet to provide their services such as IT skills abroad. Would you agree to following statement? - Someone from my family is providing his/her services abroad through internet

The study in Pakistan was conducted and released by Gallup & Gilani Pakistan, the Pakistani affiliate of Gallup International. The recent survey was carried out among a sample of 793 men and women in urban and rural areas of all four provinces of the country, conducted from 6th August - 9th September 2024. The error margin is estimated to be approximately $\pm 2-3$ percent at the 95% confidence level. The methodology used for data collection was telephonic surveys (CATI).

Across rurality: 13% of urban Pakistanis, but only 2% of rural Pakistanis, reported having a family member provide services through the internet.
