An overwhelming majority of Pakistanis use public transport (79%), with similar usage rates among rural and urban residents (79%): Gallup & Gilani Pakistan

(Islamabad) 25th November, 2024

According to a survey conducted by Gallup & Gilani Pakistan, an overwhelming majority of Pakistanis use public transport (79%). Survey findings reveal that a similar percentage (79%) of both urban and rural residents use public transport.

A nationally representative sample of adult men and women from across the country was asked the question, *"For each of the following modes of transportation, please state whether or not you have ever had the chance to use them? - Public transport (Bus or wagon)"* In response, 79% said 'Yes', 17% said 'No', 4% responded they don't know or gave no response.

The study in Pakistan was conducted and released by Gallup & Gilani Pakistan, the Pakistani affiliate of Gallup International. The recent survey was carried out among a sample of 1089 men and women in urban and rural areas of all four provinces of the country, conducted from 12th September - 11th October 2024. The error margin is estimated to be approximately ± 2-3 percent at the 95% confidence level. The methodology used for data collection was telephonic surveys (CATI).

Across gender: Minimal difference in public transport usage between men and women. 80% of male respondents reported having used public transport (buses or wagons), compared to 78% of female respondents
