More than half of Pakistanis (53%) completely disagree with the government's claim of a decrease in inflation, with a higher proportion of women (59%) and urban residents (56%) opposing the claim: Gallup & Gilani Pakistan

(Islamabad) 29th January, 2025

According to a survey conducted by Gallup & Gilani Pakistan, more than half of Pakistanis (53%) completely disagree with the government's claim of a decrease in inflation, with a higher proportion of women (59%) and urban residents (56%) opposing the claim.

A nationally representative sample of adult men and women from across the country was asked the question, “According to the government, the inflation rate has significantly decreased. To what extent do you agree or disagree with this government claim?” In response, 7% said ‘Completely agree’, 14% said ‘Somewhat agree’, 13% said ‘Somewhat disagree’, 53 % said ‘Completely disagree’ 12% said ‘Don’t know’ and 1% did not respond.

Question: According to the government, the inflation rate has significantly decreased. To what extent do you agree or disagree with this government claim?

The study in Pakistan was conducted and released by Gallup & Gilani Pakistan, the Pakistani affiliate of Gallup International. The recent survey was carried out among a sample of 788 men and women in urban and rural areas of all four provinces of the country, conducted from 7th January – 12th January 2025. The error margin is estimated to be approximately $\pm 2-3$ percent at the 95% confidence level. The methodology used for data collection was telephonic surveys (CATI).

Across gender: 59% females completely disagree with the government's claim of inflation decrease, 11% higher than the 48% of males who feel the same.
