**16% of Pakistanis said that they or their household members suffered from red-eye in the past month:
Gallup and Gilani Pakistan**

(Islamabad) 10th March 2025

According to a survey conducted by Gallup & Gilani Pakistan, 16% of Pakistanis said that they or their household members suffered from red-eye in the past month.

A nationally representative sample of adult men and women from across the country was asked the question, *“In the past month, have you or any member of your household experienced any of the following ailments/illnesses? By household members, I mean all individuals who live together and share a kitchen. [Eyes remaining red for a long time]”* In response, 83% said ‘No,’ 16% said ‘Yes,’ 1% did not know or did not respond.

Question: In the past month, have you or any member of your household experienced any of the following ailments/illnesses? By household members, I mean all individuals who live together and share a kitchen [Eyes remaining red for a long time]?

The study in Pakistan was conducted and released by Gallup & Gilani Pakistan, the Pakistani affiliate of Gallup International. The recent survey was carried out among a sample of 1042 men and women in urban and rural areas of all four provinces of the country, conducted from 7th January – 12th January 2025. The error margin is estimated to be approximately ± 2 -3 percent at the 95% confidence level. The methodology used for data collection was telephonic surveys (CATI).

Urban-Rural Divide: Residents of rural areas were 8% more likely to suffer from red eye within the past month.
